

The category of Clinical Associate membership of SIP allows adult-trained psychoanalytic psychotherapists who are registered with BPC through a different member institute (MI) to participate in several of SIP's activities. It is not, and must never be intended to convey, a qualification or full membership with SIP, and must never be alluded to in such a way as to mislead others about this.

Clinical Associates will receive information about our CPD events, study days, and the annual public lecture, as well as gain access to PEP-Web. They will be invited to General Meetings of the membership and may, in certain circumstances, be co-opted onto an SIP committee or invited to give seminars to training candidates, though will not have voting rights at AGMs or EGMs, and may not chair a committee unless they apply for full SIP membership through the direct entry scheme.

If you are interested in applying, please fill out this application form and send it, with a copy of your current registration certificate, to the Membership and Marketing Coordinator:

*Via email:*     [administrator@sips psychotherapy.org](mailto:administrator@sips psychotherapy.org)

*Via post:*     11 Orchard Street  
                  Bristol, BS1 5EH

Clinical Associate membership of SIP currently costs £86.00 p.a., plus £35.00 p.a. for PEP-Web registration (n.b. the latter is not payable if you are already registered for PEP as specified in the PEP section at the bottom of this form).

The SIP membership year runs from 1<sup>st</sup> of September to the 31<sup>st</sup> of August. The fee payable for the first year of membership is calculated on a pro rata basis to the nearest month of acceptance of an application.

**PEP-Web:**

Clinical Associates must be registered for PEP-Web via SIP unless they are already registered via another member institute (MI) with a similar 'roster-based' arrangement or have an 'APA Division 39 ' subscription. Please tick the box below if you are already registered for PEP-Web and indicate through which MI you are registered:
